

New Drone Classes!

[Flying Drones for Function or Fun](#)

#58124 | Sat., Sept 9, 2017 | 9 am - 12 pm | NICC Calmar Campus- Wilder Center | \$49

Whether you plan to use one for a purpose or just for entertainment, you'll want to learn to operate a drone from a licensed Unmanned Aircraft Systems (UAS) operator and private pilot. We will discuss the various uses for drones, clarify the difference between hobby and commercial use to determine which you are, and make sure you know how to comply with the Federal Aviation Administration (FAA) rules when flying your drone. *Instructor: Tad Mueller*

Pre-registration required, seats are limited.

[Drone Pilot Licensure Exam Prep](#)

#58126 | Sat., Sept 9, 2017 | 1 pm - 4 pm | NICC Calmar Campus- Wilder Center | \$79

Before traveling to a certified testing site and paying the testing fee, prepare yourself to successfully complete the Federal Aviation Administration (FAA) Airman Knowledge test. The instructor is a licensed Unmanned Aircraft Systems (UAS) Operator and private pilot. *Instructor: Tad Mueller*

Note: Class fee includes the Remote Pilot Test Prep book. Must be at least 16 years old to be licensed.

Pre-registration required, seats are limited.
