*for Iowans*

# Margin Protection Program for Dairy

**Learn more via webinar live**

**Friday, September 11 • 10 a.m.**

Featuring Robert Tigner, University of Nebraska-Lincoln and  
Ryan Breuer, ISU Extension and Outreach, Dairy Specialist in  
Northwest Iowa

MPP is an insurance-based 2014 Farm Bill program that allows dairy farmers an opportunity to protect against declines in the difference between a two-month average US milk price and a two-month average feed cost. The 2014 Farm Bill specifies how milk price and feed cost is determined and each is used to calculate a “US milk margin.”

**Webinar location:** Iowa’s Dairy Center

Room 115 | 1527 Hwy 150 South | Calmar, IA 52132
